OVERVIEW

In the mood for a rousing game of cribbage but can't find an opponent? No more—the perfect player is waiting inside of your Commodore 64 computer. The Cribbage program is always ready for a game. And although the program is patient enough for beginners, it's plenty challenging for old pros too. The only limitation is that you know the rules of the game.

BEFORE YOU PLAY

Whether you're a seasoned cribbage veteran or are just learning how to play, you'll be delighted by Cribbage. Day or night, rain or shine, it's always ready for an exciting game. The computer is a tough, but forgiving, opponent and takes care of all the tedious jobs like shuffling, scoring, and "pegging." All you supply is your card-playing skill.

GETTING STARTED

To get started with Cribbage, simply follow these steps. (This is called "booting.")

1. Turn on your disk drive and TV monitor.
2. Place the Cribbage disk into the drive. The label should be up, and should be the last edge to enter the drive.
3. When the disk is fully inserted, close the disk drive door.
4. Turn the computer on. The READY message will appear on your screen.
5. Type **LOAD "CRIBBAGE",8** and press [RETURN].
6. The screen will say SEARCHING FOR CRIBBAGE, and then LOADING, and finally READY again.
7. Type **RUN** .

The Softsmith logo and Cribbage title will now appear. If they don't, you may have inserted the disk incorrectly. Please try repeating the above instructions.

IMPORTANT TIPS

Follow these tips to minimize problems when running this and many other programs on your Commodore 64.

Keep the [SHIFT LOCK] key up, unless your program tells you otherwise.

Do not press the [RUN/STOP] or the [RUN/STOP] and [RESTORE] keys while your program is in use.

Do not press the [SHIFT LOCK] and [COMMODORE] keys simultaneously: this combination will upset your program.

Handle your disks carefully, and always keep them in their special sleeves while not in use.

To Play a Card

You don't need to enter the suit, since it makes no difference during play. Simply enter the appropriate single character from the preceding chart.

The computer monitors all play, lets you know when it's your turn, scores the hands, and moves the pegs along the cribbage board at the bottom of the screen. The game ends when either you or the computer scores 120 points (twice around the peg board).

WARRANTY MESSAGE

Please take a moment to fill out and mail the enclosed Warranty Card. By having your name on file we will be able to provide the best possible customer service, including information on program updates and replacement of damaged disks.
